

Press Release

ACTIVORIS STRENGTHENS MANAGEMENT TEAM WITH EXPERIENCED PHARMA EXECUTIVE

Gemünden (Wohra), Germany, June 16, 2017 – Activoris Medizintechnik GmbH today announced that Dr. Thomas Julien will take-over responsibility for Production and Logistics with immediate effect.

In his role, Dr. Julien will be part of the Activoris management team and will report directly to the Managing Directors. Dr. Julien is succeeding Dirk Rose who is leaving the company.

Axel Fischer, CEO der Activoris stated: “We are very happy to add a top-class person to our management team. Thomas is an executive with a proven track record and he adds key competences as Qualified Person for normal products and Authorized Person for Controlled Drugs. This perfectly supports our growth strategy in the field of contract manufacturing for diagnostics, pharma and medtech. At this point, we also thank Dirk Rose for his support during the first years of Activoris.”

„I am very happy to be with Activoris team now. Activoris' business model is very promising and the customer base already contains some prestigious names. Also, it is a great fun to work in a small, competent and flexible team,“ added Dr. Julien.

Dr. Julien knows the recent quality management systems in pharma and medical devices, and has a long-term experience in aseptic and parenteral manufacturing, lyophilisation, tablets, capsules and suppositories. He is a Qualified Person for „normal Products“, Authorized Person for Controlled Drugs and is eligible to approve clinical samples.

Dr. Julien started his professional career in 1987 at former Behringwerke in Marburg/Lahn. Since then, he held several senior positions in different pharma and diagnostics companies. From 2005 through 2008, he was head of pharma production at Baxter Oncology, Inc. in Halle/Westfalen. Dr. Julien changed to Haupt Pharma Wülfing (Gronau) in 2009, where he was appointed as Managing Director. In 2014, Dr. Julien changed to Next Pharma, where he took over responsibility for the site in Göttingen.

Dr. Julien achieved a diploma in Chemistry from Goethe University in Frankfurt and holds a PhD in Biochemistry from Max-Planck-Institute for Biophysics in Frankfurt/Main.

About Activoris

Activoris supports clients in the medtech and pharma industry with contract manufacturing, device developments, regulatory and business consulting as well as administration support. Activoris customers are well-established pharma and diagnostics companies as well as innovative startups aiming to gain more flexibility, lower fixed operating costs and shorter time-to-market.
